

# COLOP<sup>®</sup>

MARKING SOLUTIONS

The Spirit of Innovation

# COLOP Printer

---

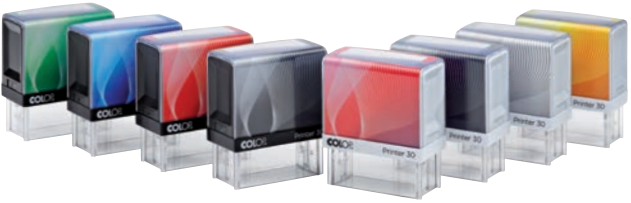

Unique as you

The new COLOP Printer is designed to integrate all the advantages of a self-inking stamp with a modern outstanding design.

The XXL image window offers personalisation on the highest level - making the stamp unique ... unique as you!

Numerous patented innovations and fascinating technical details guarantee easier and more precise stamping.

## Outstanding design

- The innovative frame concept doesn't just look great it also makes the Printer much more compact and stable.
- The eye-catching design detail of the new Printer is its XXL image window. Due to the unique ImageCard™-system, 4 different colours can be created just by using the included cards. As the stamp is offered in two different frame colours - white and black - 8 different variations of the stamp are available.

## Personalisation - unique as you

For those who want their Printer even more "personal" the XXL image window can easily be designed by oneself without creative limitations - making the stamp an eye-catcher on the desktop.

## ImageCard™ Designer

The intuitive ImageCard Designer helps the end user to personalise an ImageCard in a few steps.

[www.imagecard.colop.com](http://www.imagecard.colop.com)

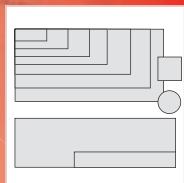

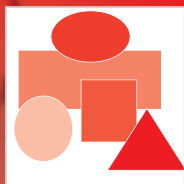

For a professionally designed ImageCard stamp specialists are provided with all the skills, know-how and tools to fulfill any customer demand. Contact your stamp specialist.

# Printer Line

The comprehensive range  
of self-inking stamps

The Printer Line offers a complete choice of sizes from small and handy up to large and generous - the largest range of formats from round to oval and even a triangle.

ImageCard™

shows the imprint protected by an image window

# Green Line

We take responsibility

The self-inking stamp range predominantly made from sustainable and recycled material. A minimum of between 65% and 80% recycled plastic is used.

Green Line Stamps are CO<sub>2</sub> neutral - unavoidable CO<sub>2</sub> emissions are compensated by means of investment into

climate protection projects (GOLD STANDARD Projects), based on the system boundary "cradle to gate".

Evaluated according to ISO 14044, verified by Denkstatt, an independent institute

The Green Line range was audited during the ISO 14001 accreditation process

The wood used for the Classic Line handles is a renewable and climate neutral raw material.

# Liquid Wood

More nature for  
your office

This innovative and pioneering material is based on LIGNIN - a natural spin-off from the paper industry. Liquid wood is sustainable because predominantly wood and not petroleum serves as its basic material. Because the source material wood is CO<sub>2</sub>-neutral, Liquid Wood also has a very small CO<sub>2</sub> footprint.

Printer Liquid  
Wood are CO<sub>2</sub>  
neutral - based  
on the system  
boundary  
"cradle to gate"

The Austrian Eco-  
Label is awarded  
by the Republic of  
Austria as  
represented by the  
Federal Ministry of  
Environment

Lignin is a natural  
polymer!

Liquid Wood is  
100% biodegra-  
dable.
