

Information about Microban®

The Microban brand is the global leader in built-in antibacterial protection.

Microban antibacterial protection

- gives products an added level of protection against damaging microbes such as, bacteria, mould and mildew that can cause cross-contamination and product deterioration
- has undergone extensive independent laboratory testing and has a long history of safe use. Microban additives can be found in the products of leading consumer, industrial and medical product manufacturers around the world
- is built-in to the product during the manufacturing process and will not wash off or wear away. It is engineered to provide continuous antibacterial product protection for the useful lifetime of the product. COLOP is utilising Microban 3G Silver™, for centuries, silver has been known for its antibacterial properties.

Testing carried out in 2011 allowing COLOP to claim a 99.9% reduction in harmful bacteria, such as E. coli, S. aureus, MRSA and Salmonella.
